

## Do You Know What It Means to be Fitted?

Thousands of men have thought they did, but never understood until they slipped into STEIN-BLOCH SMART CLOTHES, and stood in front of the long glass which shows them from head to heel. We have the clothes and we have the glass. It will take you only a minute. Today would be a particularly good time to drop in, for the new Stein-Bloch Spring Suits have just been put on the tables, fresh from the shears, clean cut, plentiful in cloth, sweeping in their lines, rich in quality, fine in finish, stylish in every inch. Signed with this Label.

## AT THE UNIVERSAL EXPOSITION

(Continued from page one.)

nitude of the enterprise or of the work accomplished. The handsome and stately buildings are a feast to the eyes. The Festival Hall and the approach thereto is a sight that a visitor will never forget. It is all grand and beautiful and inspiring. All the labor was accomplished by a number of energetic citizens of this city. Their work was practically completed in time, but the American exhibitors were slow in shipping and their goods now rest in freight cars distributed along the tracks on or about the Fair ground. These exhibitors, by their dilatory action, have injured the Exposition in a great degree and it will take some time for the Fair to recover from the setback.

The average attendance to date has been disappointing. It is generally known that the Exposition is not complete and people are holding back preferring to visit later in the season. Strange to say, the foreign exhibitors have their booths ready and their exhibits are on view. All of the important countries are represented and they have sent much that is interesting, valuable and instructive. In the building of Fine Arts, France, Germany, Austria, England, and other countries show some of the works of their best artists. The American paintings are not on exhibition at this writing. Without any question this building houses the best feature of the Exposition. Other buildings contain many interesting exhibits—the best that the world affords—but the paintings in the building of Fine Arts attract a never-ending crowd.

Admitting that the Exposition is not complete, yet there is enough and more here to interest the visitor. It is worth a long trip to see the Exposition buildings and the structures erected by the States, Territories and Foreign Countries. The buildings and grounds are illuminated at night with countless electric lamps and globes. The sight is indescribable. An illuminated cascade rolls from the Terrace of States down to the Grand Basin; light shines from the eaves of buildings, the arches, the steeples, the windows. The result is one vast blaze of light and is a sight never to be forgotten. The exhibition buildings are not opened at night, but visitors are entertained by Souza's, Innes' and other bands, not so famous as the two organizations mentioned, but just as good. The Pike or "Midway" is a great attraction in the evening. It extends for a mile and one-half. The best shows have not opened as yet, but work on the buildings is progressing. The Hagenbeck animal show offers the best entertainment at present. The other attractions run from fair to very bad. But one soon tires of the Pike and returns to the Exposition proper to enjoy a second time its beauty and many solid attractions.

There is no Hawaiian exhibition on the Pike. A party of six Hawaiian musicians left Honolulu two weeks ago en route to St. Louis, so it was claimed. Upon inquiry, it was ascertained that the boys were on their way to New York to play at summer resorts and had no intention of stopping at St. Louis.

The Exposition grounds is composed of 1240 acres of land. To quote David R. Francis, President of the Exposition, "It is twice the area of the Columbian Exposition; four times that of the last Paris Fair; over four times that of the Pan-American, and over five times that of the Centennial. Or to put it another way, the Universal Exposition embraces within its six-mile boundary line an area larger than that of the Chicago, Buffalo and Philadelphia Fairs combined."

Visitors are complaining about high living rates. The hotels have increased their prices since the Fair opened; laundry men have commenced to squeeze the stranger, ten cent barbers have blossomed into twenty-five cent artists. If one desires to dine at a decent restaurant he must have a purse full of gold. This is no place for a man with a few dollars unless he can live on a diet of coffee and doughnuts. The only cheap things to be had are newspapers and car rides. Both are first class and offer the only bargains to be found in St. Louis. The people here are keen for money. Every other house or principal thoroughfare advertises for roomers with signs which mean "World's Fair Visitors Taken In." The foregoing quotation is about true so when you come to this city, say you are a drummer from Kansas City, say anything but that you are a "World's Fair Visitor." They are waiting for you.

But St. Louis is no worse than other Exposition cities. The law of demand and supply works here as well as elsewhere. But travelers are expected to pay and if occasionally, one meets with a reasonable charge, it is as an oasis in the desert.

### SUBMARINE BOAT DID IT.

PARIS, May 18.—The St. Petersburg correspondent of the Echo de Paris has been shown a letter from Lieutenant-General Stoessel, now in command of the military forces at Port Arthur, to a relative, recounting the loss of the battleship Petropavlovsk, in which is the following: "As the squadron approached the entrance to Port Arthur the battleship Pobieda was struck by a Whitehead torpedo discharged by a submarine boat. We saw the submarine for a few seconds and I ordered that it be fired at, but the boat was not hit."

Another letter from General Stoessel says that he saw two submarine vessels in the roadstead on April 15th.

## Wilke Refrigerators....

MERIT THE SERIOUS ATTENTION OF EVERY CAREFUL HOUSEWIFE.

The safe, economical and healthful preservation of food is quite as important as the food itself. Fresh, sweet and clean foods should not be submitted to the care of soggy, decaying wood and corroding metal, nor surrounded with dank, dead air; yet that persistent odor in the ordinary refrigerator is proof positive of corruption.

WILKE REFRIGERATORS are lined with either white glazed tile or half-inch plate glass; internal fixtures are all removable. Materials are absolutely non-corrosive, construction is air-tight, and there is a constant circulation of cold, dry air in every cubic inch of the provision chambers.

### SHAVED FAMOUS MEN.

Portland, Me., has lost its most famous barber in the death of John B. Pike. In his time he shaved Grant, Sheridan and Garfield. Ben Butler was fond of him. Judge Clifford used to spend the morning hour in the office to have John tell him the news and save him the trouble of reading the paper. Blaine and Tom Reed and Neal Dow were good friends of the clever barber.

### LESSONS IN EATING RICE.

Rice growers believe that there are hundreds of thousands of people in this country who do not eat rice because they know so little about the various ways of preparing it as food. So they are going to have a \$16,000 kitchen at St. Louis Exposition, in which the cereal will be served in scores of forms, just as potatoes are now commonly served, for which they claim rice is an excellent substitute—New York Times.
